

# **DETAILED STATISTICAL PROGRAM 2016**

#### RESEARCH AND DEVELOPMENT STATISTICS / R&D: EXPENDITURE AND **PERSONNEL IN R&D ACTIVITIES**

Submission of data with reference year 2014 (final data): 30.06.2016

|      | Title   | All<br>sectors | By field of execution            |                               |                       |                                     |
|------|---|----------------|----------------------------------|-------------------------------|-----------------------|-------------------------------------|
| Code |   |                | Business<br>enterprise<br>sector | Higher<br>education<br>sector | Governm<br>ent sector | Private<br>non-<br>profit<br>sector |
| 1.13 | Number of R & D personnel in full-time equivalent (FTE) |                |                                  |                               |                       |                                     |
|      | Without breakdown                                       | 1.13.0.0       | 1.13.0.1                         | 1.13.0.2                      | 1.13.0.3              | 1.13.0.4                            |
| 1.14 | Number of researchers in full-time equivalent (FTE)     |                |                                  |                               |                       |                                     |
|      | Without breakdown                                       | 1.14.0.0       | 1.14.0.1                         | 1.14.0.2                      | 1.14.0.3              | 1.14.0.4                            |
| 1.20 | Intramural R & D expenditure                            |                |                                  |                               |                       |                                     |
|      | Without breakdown                                       | 1.20.0.0       | 1.20.0.1                         | 1.20.0.2                      | 1.20.0.3              | 1.20.0.4                            |
|      | By source of funds                                      | 1.20.1.0       | 1.20.1.1                         | 1.20.1.2                      | 1.20.1.3              | 1.20.1.4                            |

### Submission of data with reference year 2015 (provisional data): 31.10.2016

|      | Title   | All<br>sectors | By field of execution            |                               |                          |                                 |
|------|---|----------------|----------------------------------|-------------------------------|--------------------------|---------------------------------|
| Code |   |                | Business<br>enterprise<br>sector | Higher<br>education<br>sector | Governm<br>ent<br>sector | Private<br>non-profit<br>sector |
| 1.13 | Number of R & D personnel in full-time equivalent (FTE) |                |                                  |                               |                          |                                 |
|      | Without breakdown                                       | 1.13.0.0       | 1.13.0.1                         | 1.13.0.2                      | 1.13.0.3                 | 1.13.0.4                        |
| 1.14 | Number of researchers in full-time equivalent (FTE)     |                |                                  |                               |                          |                                 |
|      | Without breakdown                                       | 1.14.0.0       | 1.14.0.1                         | 1.14.0.2                      | 1.14.0.3                 | 1.14.0.4                        |
| 1.20 | Intramural R & D expenditure                            |                |                                  |                               |                          |                                 |
|      | Without breakdown                                       | 1.20.0.0       | 1.20.0.1                         | 1.20.0.2                      | 1.20.0.3                 | 1.20.0.4                        |
|      | By source of funds                                      | 1.20.1.0       | 1.20.1.1                         | 1.20.1.2                      | 1.20.1.3                 | 1.20.1.4                        |

### **GOVERNMENT BUDGET APPROPRIATIONS FOR R&D (GBAORD)**

Submission of data with reference year 2015 (initial / provisional budget): 30.06.2016

| Code | Title   |
|------|---|
| 21.0 | Government R & D appropriations in the provisional budget (as approved by the Parliament at the beginning of the budget year) |

#### Submission of data with reference year 2015 (final budget): 31.12.2016

| Code | Title  |  |
|------|--|--|
| 21.1 | Government R & D appropriations in the final budget (revised budget approved during the budget year) |  |
| 22.0 | National public funding for transnationally coordinated R&D  |  |

The results of the statistics for variables 21.0 and 21.1 are analyzed according to the nomenclature for the analysis and comparison of scientific programs and budgets (NABS 2007).

In addition, the results of the statistics for variable 21.1 are broken down into "project funding" and "institutional funding".

### **COMMUNITY INNOVATION SURVEY**

## Submission of data with reference to the time period 2012-2014: 30.06.2016

| Variable | Title  |  |
|----------|--|--|
| 1        | Number of innovation active enterprises  |  |
| 2        | Number of innovating enterprises that introduced new or significantly improved products, new to the market/new to enterprise |  |
| 3        | Turnover from innovation, related to new or significantly improved products, new to the market                               |  |
| 4        | Turnover from innovation, related to new or significantly improved products, new to the firm, but not new to the market      |  |
| 5        | Number of innovation active enterprises involved in innovation cooperation   |  |
| 6        | Innovation expenditure   |  |
| 7        | Number of innovation active enterprises that indicated highly important objectives of innovation                             |  |
| 8        | Number of innovation active enterprises that indicated highly important sources of information for innovation                |  |
| 9        | Number of enterprises facing important hampering factors   |  |
| 10       | Number of innovating enterprises that developed the innovations itself or together with the other enterprises/institutions   |  |
